There seems to be nothing but informal tea drinking now to pass away the so-cial hours, and, really, during the last few days the cup of hot tea, which had been abolished, has been welcomed and drank and talked over by all the smart set. They were up in arms Friday for the fatal effect of face massage of a Chicago girl, saying that this latest freak of their vain and erring sisters would give no end of ground for their new condemners in the magazines. By the way, an interesting article is published in one of this month's magazines one of the social lights of New York, in which she denies the vices laid at the society woman's door in a strong, forcible and convincing article. That there are exceptions, of course, —e admits, for she thinks that the saying "that every family have black sheep" is true of the large social families as well.

To-day the social world enters on the first day of the first summer month, when spring is past and gone and the great whirl of social gayety commences. Those who have not already done so will tomorrow bright and early look over their bathing suits, pore over the railway guides and catalogues and bethink themselves of pastures new in which to the summer hours; or, the unfortunate stay-at-home will plan her car rides and al fresco suppers, which the bread winner will enjoy when hot and tired from the toils of the day down town.

Perhaps the social event of most inter est last week was the marriage in the suburbs Tuesday of Miss Sallie Randolph and Mr. Lawrence Miller, of Baltimore, which occurred at Emmanuel Church at
